Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, 6, 8, 14, 16, 18, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Dollar, Jr. et al. (US Patent No. 4,789,160).

Dollar discloses first and second tracks, first and second components in the tracks, first and second detectors, indicator, neutral position and active position, and a speaker (30).

Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Dealy (US Patent No. 3,766,538).

Dealy discloses a track (40), a free moving component (46), a detector (42), and an indicator (24) as claimed (see Figs. 1-4).

Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Conley et al. (US Patent No. 5,082,283).

Conley discloses a track , a free moving component , a detector, and an indicator as claimed (see Figs. 1-5).

Claims 18-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Conley (US Patent No. 5,169,151).

Conley discloses a track a free moving component, a detector, and an indicator, and magnetic material as claimed (see Figs. 1-8).

Allowable Subject Matter

Claims 3, 4, 12, 13, and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Dollar in view of Burke (US Patent No. 6,991,552).

Dollar does not disclose the use of a printed circuit board. However the use of such type of device is well known in sport and Burke is one reference among many that teaches such type of element (see Fig. 6 including element 62). It would have been obvious to provide the Dealy device with a printed circuit board in order to process and store data to the user of the device.

Response to Arguments

Applicant's arguments with respect to claims 1-8, 13, and 14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
